PROJECTS

ColorFull — [view on App Store](#) — [view on GitHub](#)

Aug 2018

(Swift, UIKit, Outlets & Actions, UserDefaults, UIColor, UIView Animation, Xcode)

- Generate a specific colour from millions of combinations using sliders and spinners with HEX and RGB values, then save, copy, and share the colour as a custom generated image, or plain text in either HEX or RGB values.
- Create random colours with the tap of a button or using Siri.
- Paste (import) a string of text representing a colour from outside the app, as a HEX or RGB value, and edit it using the app's controls.
- Set the app to a light or dark theme and select an alternate app icon via in-app settings.
- Last chosen colour, theme, and whether the HEX or RGB picker was last used, are saved for the next app launch.

Guess — [view on App Store](#) — [view on GitHub](#)

Jul 2018

(Swift, UIKit, Outlets & Actions, Xcode, Adaptive design, Tables, Mathematics, Games)

- Pick a number and have the app guess it in multiple ways through multiple games.
- Set the app to a light or dark theme, select an alternate app icon, and turn sounds on or off via in-app settings.
- Settings for theme and sound are saved for the next app launch.

Prime — [view on App Store](#) — [view on GitHub](#)

Jun 2018

(Swift, UIKit, GCD & Dispatch, Outlets & Actions, Xcode, Tables)

- Find out if a number is prime, list primes in a range, decompose a number into its primes and generate random primes (app can generate random primes with the tap of a button or using Siri).
- Set the app to a light or dark theme, select an alternate app icon, and turn sounds on or off via in-app settings.
- Settings for theme and sound are saved for the next app launch.

WORK EXPERIENCE

Udacity, Student Mentor, Remote

Apr – Jul 2017

- Assisted students through their learning journey, helping them troubleshoot and debug their projects and programs.
- Expanded debugging knowledge going over code from aspiring developers with various backgrounds and experience levels.
- Answered over 500 questions, ranking in the 90th percentile of forum contributors.

EDUCATION

• **Udacity, iOS Developer Nanodegree** — [view certificate](#)

Jun 2018

• **Udacity, Intro to Programming Nanodegree** — [view certificate](#)
